

Project SN→AFU®

A Game for Our Times

In the world of **Project SN-AFU®**, a beleaguered project manager leads a heroic (if somewhat distracted) team while fending off the absurd antics of managers who never learn, uncooperative stakeholders, and predatory vendors. (Sound familiar?)

As described in the [Glossary](#) on our website, this game redefines project concepts in ways that would make a Standards Body cry. (You may find this curiously satisfying.)

Project SN-AFU® is played by 3 to 6 individuals or teams of two.

- The **Core Card Game** is the heart of **Project SN-AFU®**. It consists of:
 - **90 Query and 300 Answer cards** – Play an irreverent, incorrect, really wrong answer to an innocent question. When your card is chosen, you win the turn. Win 5 turns to win the game. Sample cards are shown here:

- The **Core Board Game** creates a new level of play with 490 cards plus a game board and six game pieces. Cards include those in the card game plus:
 - **60 Project Review cards (Plan and Do)** – An ongoing duel with the Review Board moves you forward or back on the game board (see next page).
 - **40 Stuff Happens cards** – Inflict these on other players to cause them grief. Or to play with their heads. Or play one on yourself to gain advantage.
- The Core Games are 97% **Safe for Work** (you can't please everybody) **unless** you add the NSFW expansion pack, in which case **WATCH OUT!**

Project SN→AFU®

- A [demo of the game](#) is available on our website.
- **Download is free!** Download the game, print and cut the cards to size, and play.

Expansion Packs add to the Core Game by providing more cards. Two Expansion Packs are available:

- **Certifiable PM Expansion Pack 1.** This expansion pack includes cards that mock, twist and mangle concepts and terminology that experienced project managers should know. Discover the wonderful world of WBS (Work Breakdown Syndrome) and RFP (Rationale for Pain). Learn to **Do – Check – Plan – Panic – Blame**
 - 225 New cards - More wacky answers; new player interactions
- **NSFW Expansion Packs 1 & 2.** Is the Core Game too tame? Want to spice it up? These Expansion Packs add that something extra that you are looking for.
 - But be careful where you use them. **Not Safe for Work!**
 - 80 Answer cards and 25 Query cards add very improper insanity

Grow the Game! Distributed under a Creative Commons BY-NC-SA 4.0 license. Use the game, modify it, add to it, and share what you have created with anyone, **for free**. (No commercial use is allowed without our permission. See our [website](#) for details.)

Project SN-AFU® is an experiment. We hope that the Worldwide Project Community will adopt the game, build on it, and make it a true expression of how we all feel about the projects we deal with every day. **So join us! And make the game come alive...**
